

6. Regular presence of national and international officials in meetings, and submitting reports on activities and improvements of the situation.

7. To employ legal potentials of international conventions in order to persuade the concerned international organizations and countries in the region to abide by their commitments to fight the phenomena of desertification and airborne dust.

8. To establish the International Airborne Dust Society, which will be founded by the Kermanshah University of Medical Sciences, Razi University of Kermanshah, University of Babylon, Al-Qadesieh University, and the Iranian Department of Environment.

9. The signatories of this resolution emphasize the management of airborne dust sources and the control of the impact at national and regional levels, and request that high ranking national and international officials to pay special attention to this problem.

Dr Mohammad Reza Nikbakht, 

Chancellor of the Kermanshah University of Medical Sciences, and Deputy Minister of the Ministry of Health and Medical Education, Iran

Dr Mohammad Mahdi Khodaei,
